## SUMMER'S STORY:

"As a person who benefited greatly from the 'Let's Talk' Program, I can't imagine what would've happened if I never made that phone call. When I found out I was pregnant, I was just looking for some direction and I was a mess spiritually. What I received in return was not only spiritual guidance, but a forever family. The 'Let's Talk' program was alongside me during this difficult time. I am glad that I took the leap of faith and joined. This program met me where I was in life and has given me hope for a better future. I have not only learned tools that I will carry with me, but that I can pass vital information along to my daughter. I am forever grateful for the 'Let's Talk' program."
